

Engaging Children in Climate Change Education at the University Museum of Bergen

Odette Tetlie, Leader of Education

UNIVERSITY
OF BERGEN

The Importance of Climate Education

UNIVERSITY
OF BERGEN

How we teach:Methods

1. Engaging through Drama and Storytelling
2. Interactive Learning and Experience
3. Encouraging Exploration – Don't Give Answers

Teaching philosophy

Influence of John Dewey

Climate and Nature – It's All Connected

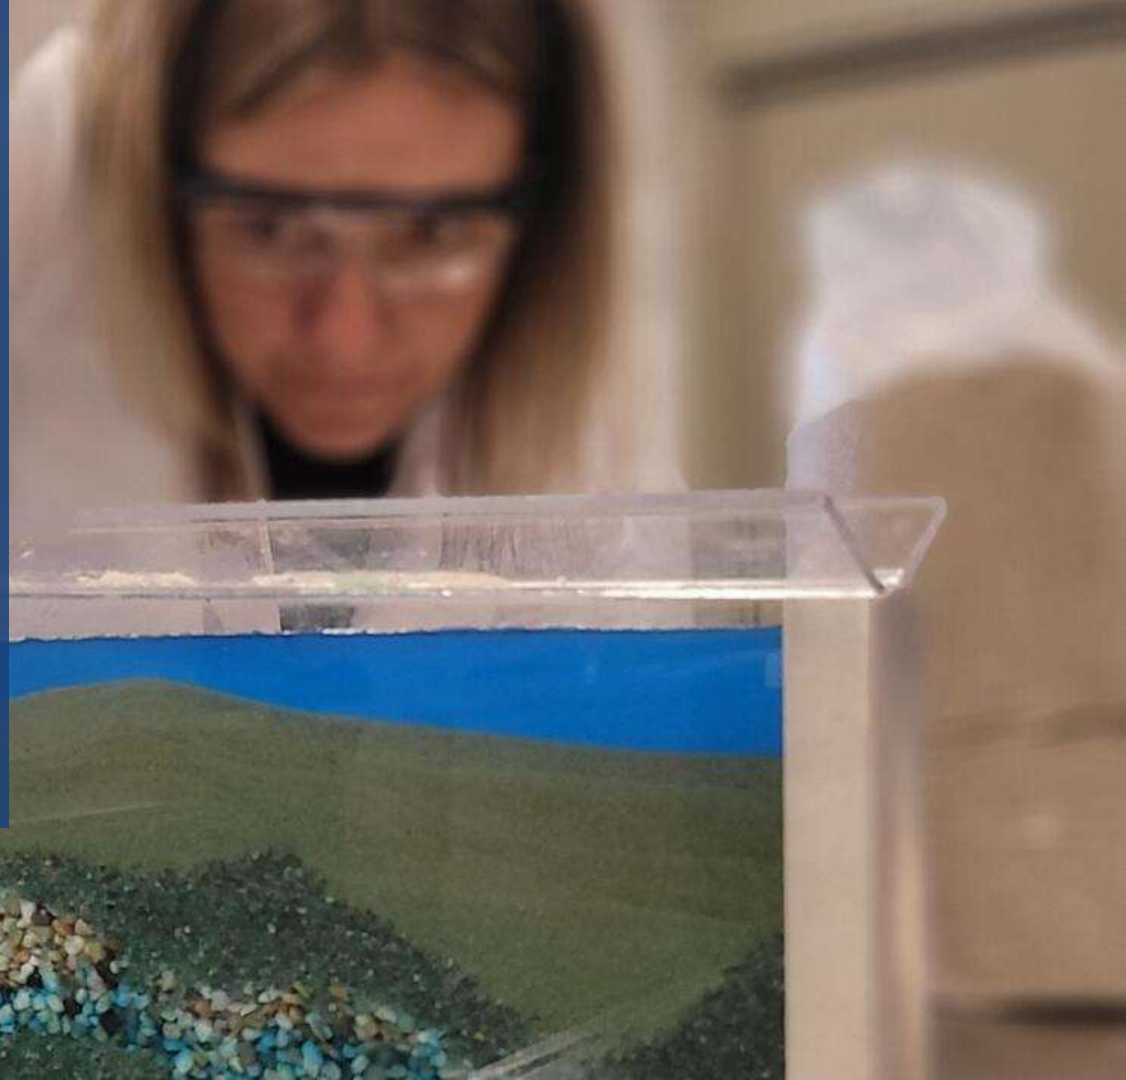

Example 1:

*The Ice is
Melting! It's for
Real!*

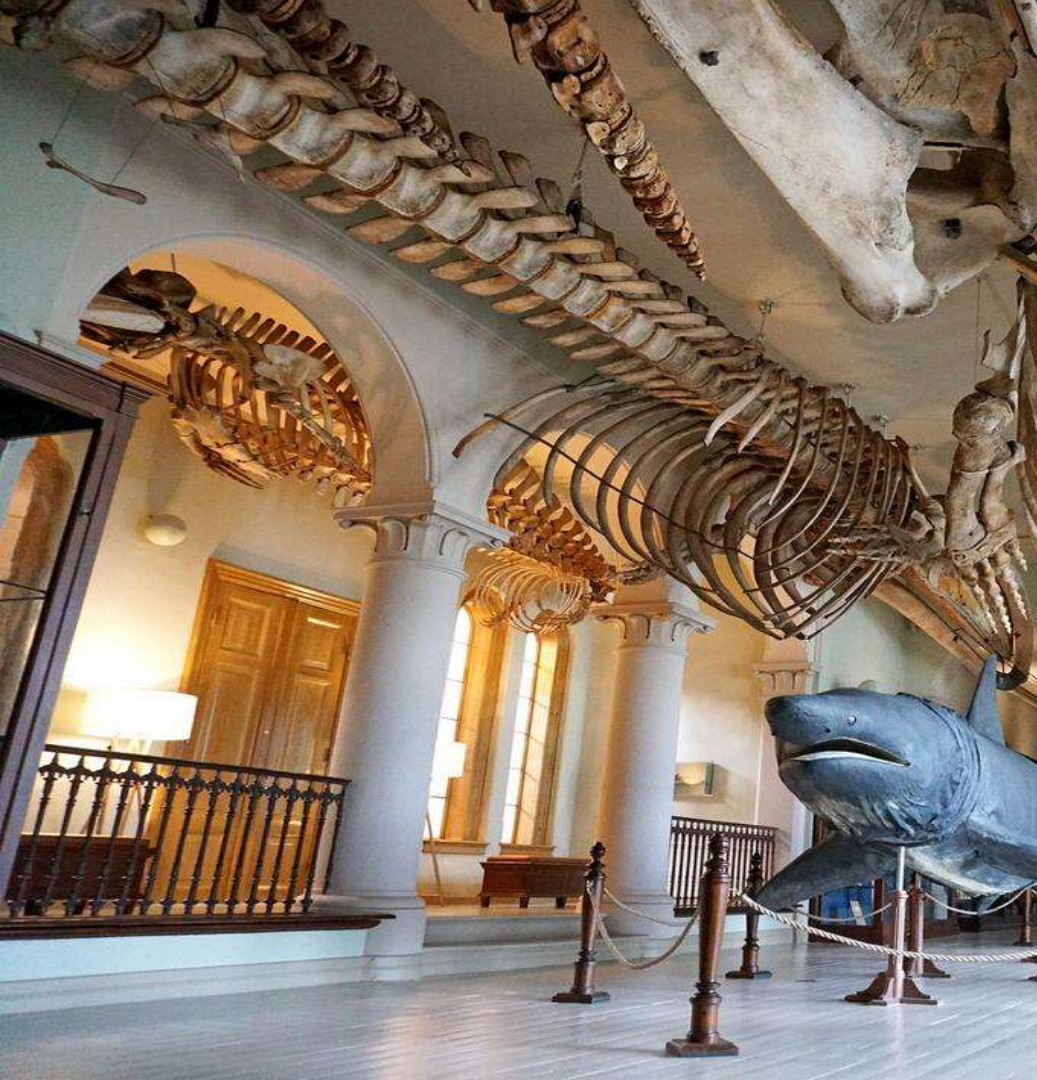

Example 2:

***Co2 Capture and
Storage – a solution
for the Climate
Crisis?***

Results

Future plans

Project 1:

The Climate riddle

Project 2:

The Humans and the Ocean

The importance of Diverse Teaching Methods for Children

1. Diverse Learning Styles
2. Promotes Engagement
3. Encourages Critical Thinking
4. Supports Individual Interests
5. Builds Social Skills
6. Addresses Different Needs
7. Enhances Retention

. Our primary Goals:

- **Inspire Lifelong Learning:** Motivate students to continue learning beyond their visit
- **Encourage Dialogue:** Invite insight, reflection, and social interaction
- **Promote Democratic Competence:** Strengthen decision-making skills through engagement.

The Method is the Key!

UNIVERSITY
OF BERGEN

Thank you!
