

Maa tekib

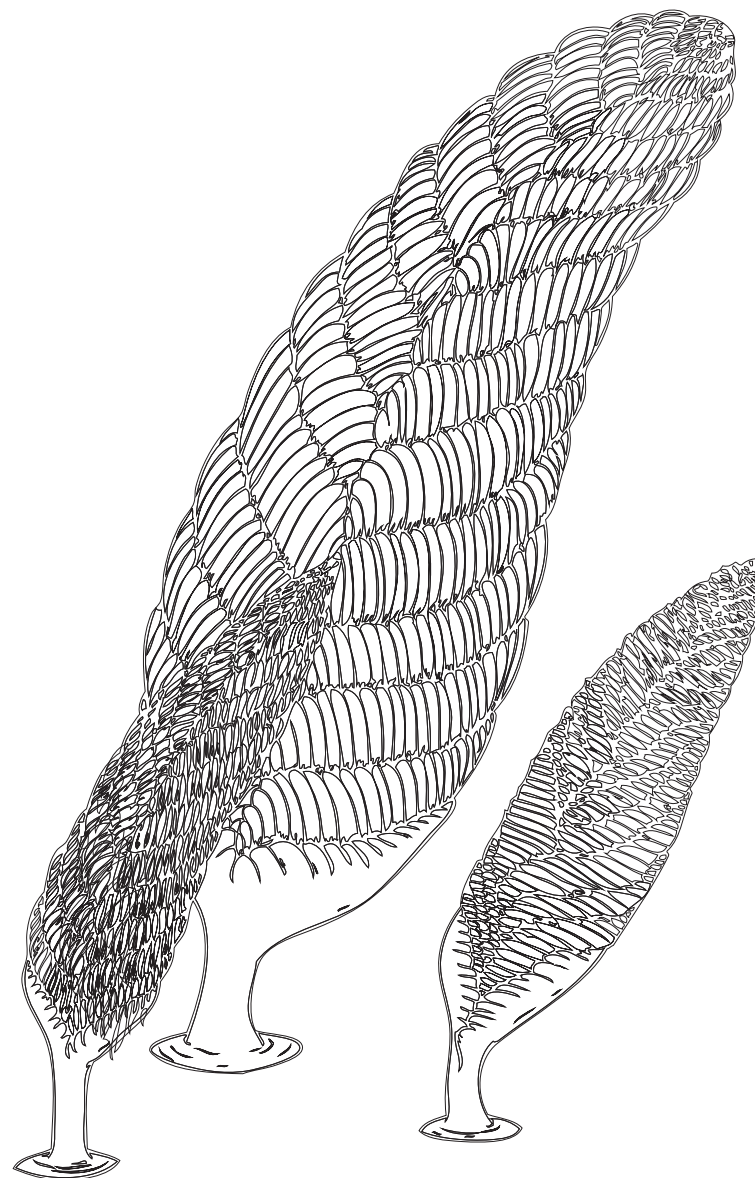

Esimesed arvatavad kivistunud elu jäljed

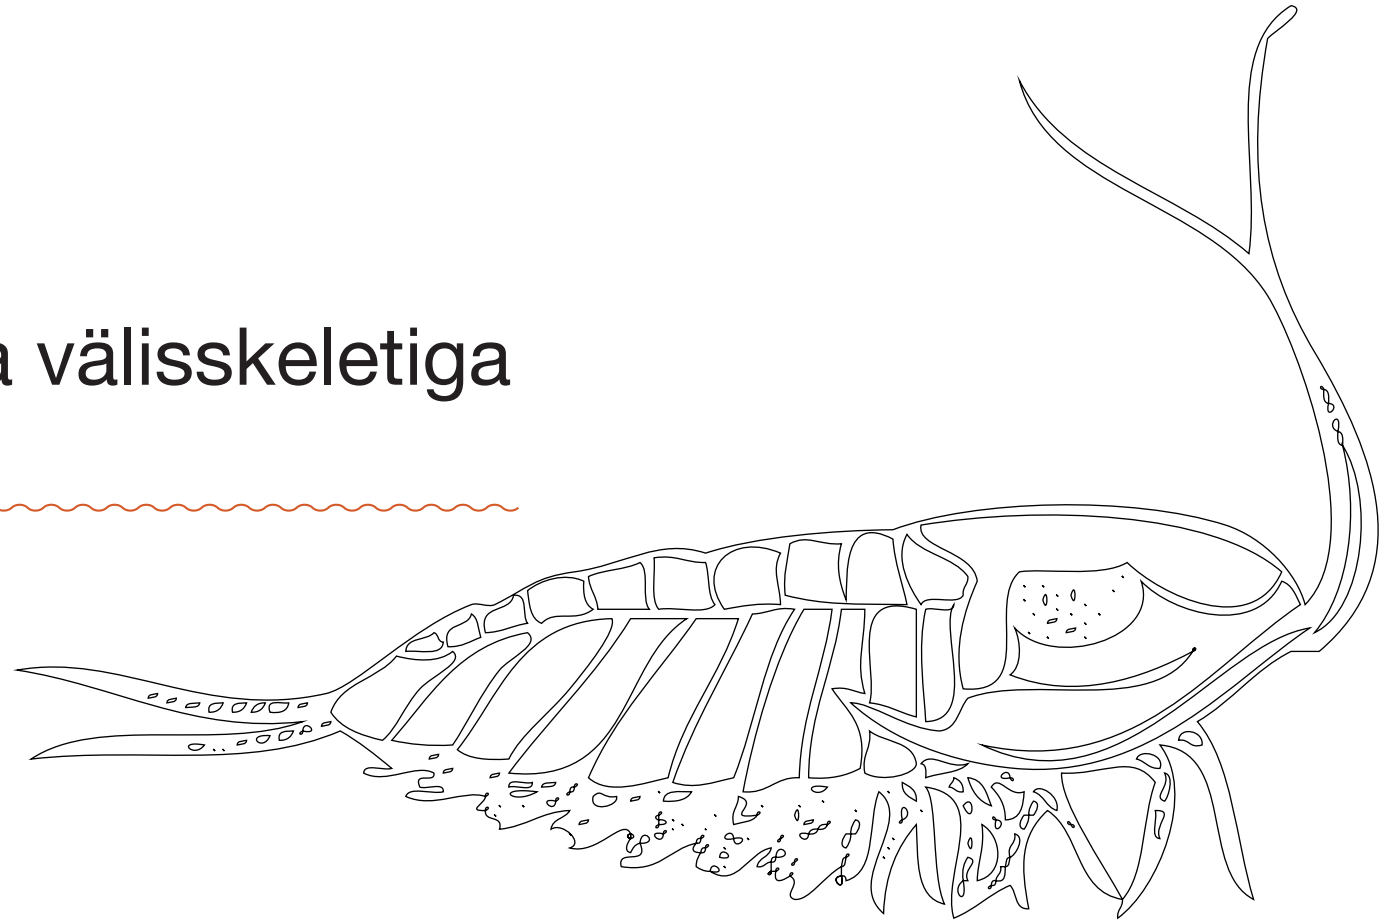

Maa atmosfääri hakkab
esmakordselt ilmuma vaba
hapnik

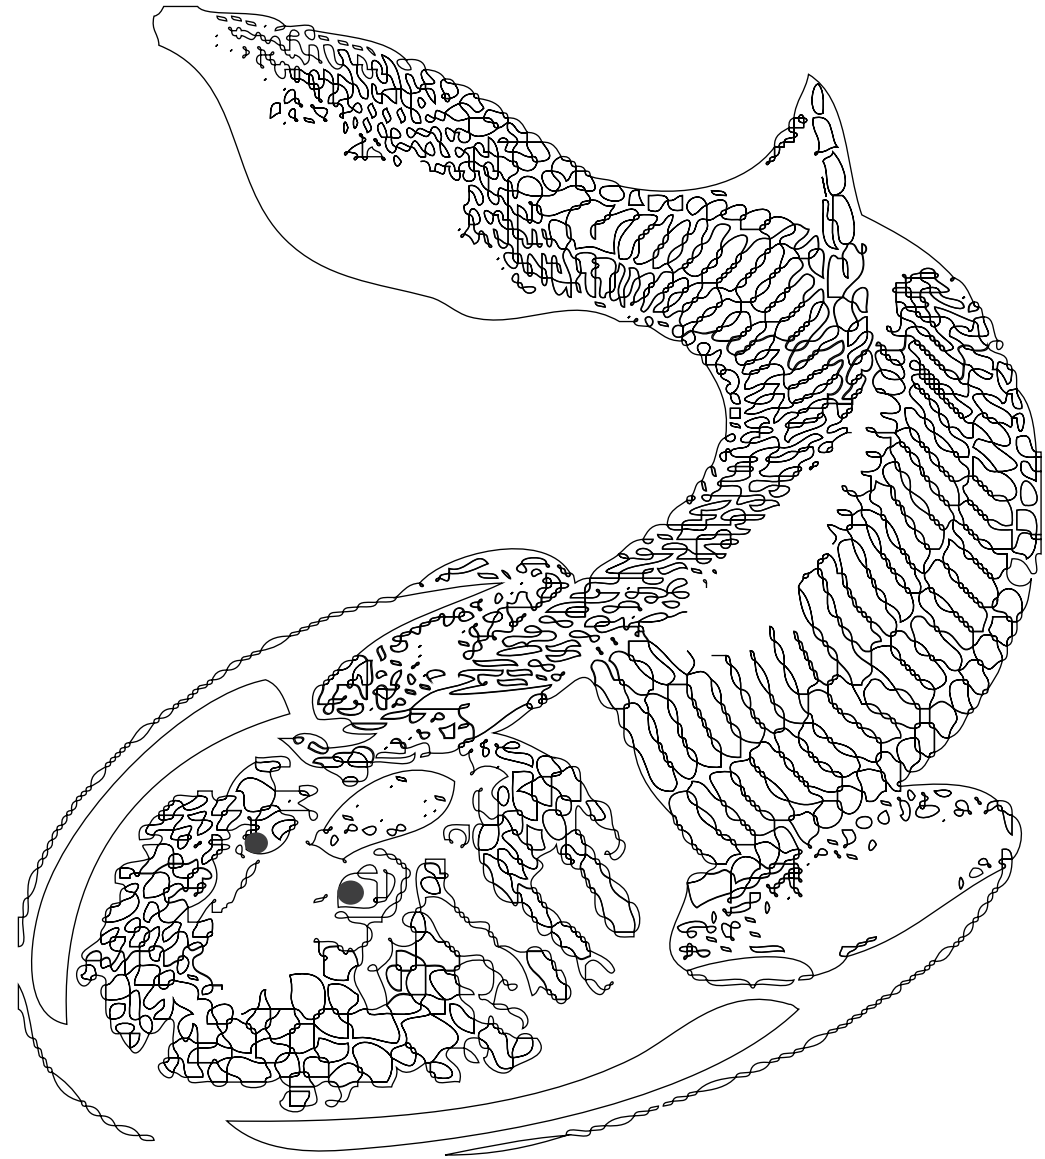

Esimesed suured hulkraksed organismid

Esimesed kõva välisskeletiga loomad

Esimesed kalad

Esimesed maismaataimed

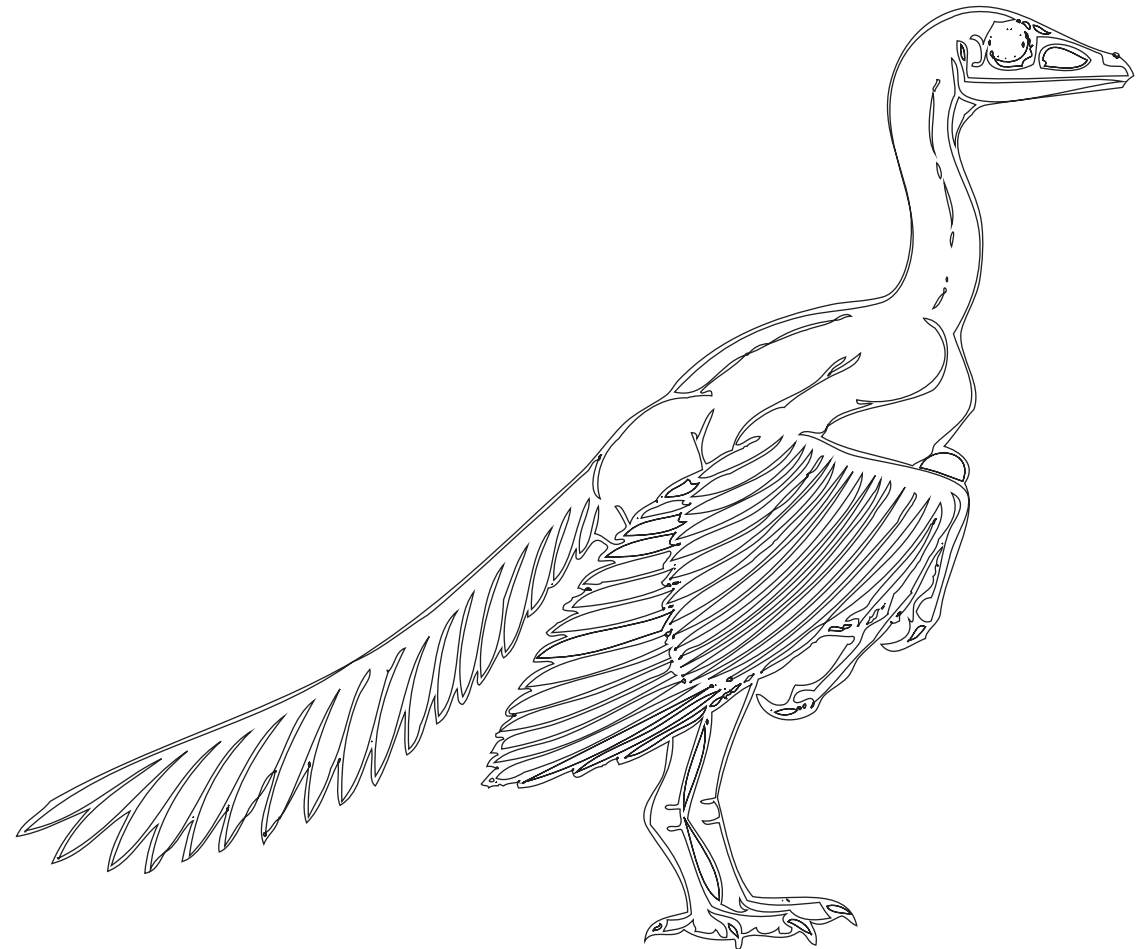

Esimesed dinosaurused

Esimesed imetajad

Esimesed linnud

Dinosaurused surid välja

Esimesed inimesed

Täna
